- The body is mounted to the vehicle frame with eight (8) angle brackets

**Included Accessories**

**LED Interior lights** are installed in each animal compartment and storage compartment with the switch box mounted in the cab of the vehicle.

**Swinging partitions** are installed in animal compartments and can be opened to create a pass-through compartment between each side of the unit. If a slide out lift system is installed, the swinging partition is omitted in that compartment.

**Backup Camera** from the factory will be installed on the rear of the animal control unit. If your vehicle is not equipped from the factory with a backup camera monitor, there will be additional charges.

**Backup Alarm**

**6-Secondary Safety Door**-These doors are located inside the primary door and are constructed of 125 aluminum with 3/4" holes punched for ventilation and a catch pole cutout.

**Top Luggage Rack**-This rack is installed on top of unit for additional storage. The rack is constructed of 1 1/2 X 1 1/2 square aluminum tubing welded.

**Air Conditioning System**- Unit is 18,900 BTU with add on compressor to truck engine. (Rangers, S-10's, Toyotas, etc are not adaptable to brackets for added compressors.)

**Auxiliary Heating**- A 16,000 BTU directional air louvered heater.

**Dead Animal Box with Lift Gate**-Located in the rear center of the unit, with a hydraulic lift gate capable of lifting 1000 pounds. If this is added to the unit, the rear storage becomes 8" deep on each side.

**LED Directional Light Bar** -Traffic advisor located on the rear of the unit, placed at center top to advise traffic of the vehicle location.

**8-Door Props**-Mounted to the inside of the primary door, used to hold the door in open position while loading/unloading animals.

**Digital Thermometer**-Mounted on dash of truck with the probe located inside animal unit to monitor temperature while vehicle is in use.

**Optional Accessories**

**LED Emergency Strobe** - LED Mini lightbar strobe installed on front of unit. Strobe is operated by a switchbox in the vehicle cab.

**Patio Storage Bumper**-The bumper is constructed of steel and is 82" long and 15" wide, painted with automotive polyurethane paint, and has a storage compartment in the center.

**Rubber Mats**-Constructed of 1/2" thick, chew proof rubber mats to fit the floor of the compartment.

**LED Work Lights** (2) 4 X 6 LED work lights mounted on the rear of the unit.

**Dead Animal Pan**-Pan is constructed of aluminum and has four raised sides and handles on each end and is removable.

**Deerskin Lift System**-Slide out cage housed in curb side front compartment to assist in lifting large animals. Powered by a 2500# 12 volt, cable winch, the cage lowers to curb height and is capable of lifting 200 pounds.
